

Registration

Student participants or teams are required to have an adult adviser who registers and guides them. Advisers can be parents, teachers, guardians, and other mentors. A registration form must be completed for all individual entrants and teams.

To register, simply email orcadatajam@teamorca.org to let us know you have a team/individual that would like to compete in the 2022 Team ORCA Data Jam.

Include: Name of your school or group
Name, email, phone number of team adviser
Name(s) of team member(s) and email address(es) (no more than 8 members)
Grade Level

We will contact the team advisor with a confirmation email and any future updates including mentor meetings or office hours, project submission information, and showcase details. If you have not received a confirmation email within 48 hours of submitting your registration, please email mweiss@teamorca.org. Registration is non-binding but helps us with showcase details.

Registration Deadline

Project registration closes on **March 31st at 5pm.** A free virtual classroom visit from an Ocean Research & Conservation Association (ORCA) educator to introduce the Team ORCA Data Jam or assist with student projects is offered to those that register before March 15th.

All students participating in the competition must have their parental/guardian consent forms submitted by **April 22, 2022**. Team projects with missing consent forms cannot be judged.
